Professional Summary

Passionate Full-Stack Software Engineer with over three years of hands-on experience designing and delivering scalable web and mobile applications using .NET Core, Angular, Flutter, and cloud technologies. I have a proven track record of reducing processing times by 25% and eliminating manual errors by 95% through innovative full-stack solutions. My expertise encompasses SharePoint, PowerApps, Power Automate, database optimization, and end-to-end system architecture. As a proactive communicator and team player, I excel at translating complex business requirements into high-impact applications and mentoring colleagues to achieve shared goals. Committed to continuous learning and staying abreast of industry trends, I am driven to advance into senior development and leadership roles.

Technical Skills

Programming Languages: C#, JavaScript, TypeScript, Dart, SQL, HTML5, CSS3

Frontend Technologies: Angular, Flutter, Bootstrap, Responsive Design, Cross-browser Compatibility

Backend Technologies: .NET Core, ASP.NET Web API, Entity Framework, Node.js, RESTful APIs, Microservices, Swagger API

Database Technologies: Microsoft SQL Server, Oracle Database, PostgreSQL, MongoDB, Database Design, Redis Caching

Cloud Platforms: Microsoft Azure, Google Cloud Platform, Firebase, Azure DevOps

Microsoft Technologies: SharePoint, PowerApps, Power Automate, Power Platform, Microsoft Power BI

DevOps & Tools: Git, GitHub, Docker, CI/CD, GitHub Actions, Version Control, Code Review, AutoMapper

Testing & Quality Assurance: Moq, Unit Testing, Integration Testing, Software Testing, Postman

Development Methodologies: Agile, Scrum, SDLC, Object-Oriented Programming (OOP), Clean Architecture, Design Patterns (Repository, Factory, MVVM)

Additional Skills: OAuth2 Authentication, Geocator API, Bing Maps API, Problem Solving, Team Collaboration, Technical Documentation

Professional Experience

Software Engineer

Information Technology of Egypt Corporation | Giza, Egypt | September 2022 - Present

- **Led** full stack development initiatives across multiple enterprise applications, utilizing modern technologies including .NET Core, Angular, Flutter, and cloud platforms to deliver scalable solutions for business-critical operations
- **Collaborated** with cross-functional teams including business analysts, designers, and stakeholders to gather requirements, design system architecture, and implement user-centric applications serving 10,000+ users
- **Implemented** agile development methodologies and best practices including code reviews, unit testing, and CI/CD pipelines to ensure high-quality software delivery and maintain 99.9% system uptime
- **Optimized** application performance and database queries, achieving significant improvements in response times and user experience across web and mobile platforms
- **Mentored** junior developers and conducted technical knowledge sharing sessions on modern development frameworks and cloud technologies

IT Specialist

The Breakroom Company | Cairo, Egypt | June 2022 - August 2022

- **Provided** comprehensive technical support and help desk services for 50+ employees, maintaining 98% issue resolution rate within SLA requirements through systematic troubleshooting methodologies
 - **Administered** Odoo ERP system including database optimization, user training, and system maintenance, achieving 20% improvement in user adoption and system performance
 - **Executed** hardware and software troubleshooting across Windows and Linux environments, performing network configuration and system maintenance to ensure 99.5% uptime
-

Key Projects by Technology Stack

.NET Core / ASP.NET Projects

Grifols-DonorHUB Backend API (2025)

- **Technologies:** ASP.NET Web API, Microsoft SQL Server, OAuth2 Authentication
- **Architected** backend for blood donor management system serving 10,000+ donors
- **Implemented** OAuth2 authentication ensuring HIPAA compliance

Kaizen GYM Management System Backend (2024)

- **Technologies:** ASP.NET Web API, Swagger API, Microsoft SQL Server, AutoMapper
- **Engineered** comprehensive gym management platform backend
- **Applied** Repository, Factory, and MVVM design patterns

Tender Management Platform (2023-2024)

- **Technologies:** ASP.NET Web API, Swagger API, Microsoft SQL Server, CI/CD Pipeline
- **Designed** enterprise-level tender management platform processing 200+ monthly tenders
- **Implemented** robust API architecture with comprehensive Swagger documentation

Location-Based Attendance System Backend (2024)

- **Technologies:** ASP.NET Web API, Swagger API, Microsoft SQL Server, Redis Caching
- **Developed** backend for attendance tracking serving 100+ staff members
- **Integrated** Redis caching for optimal performance and sub-second response times

Smart Parking System Backend (2021)

- **Technologies:** .NET Core, SQL Server, RESTful APIs, Payment Gateway Integration
- **Built** scalable backend infrastructure using Entity Framework
- **Implemented** payment gateway integration and GPS-based services

Angular Frontend Projects

Grifols-DonorHUB Web Portal (2025)

- **Technologies:** Angular, TypeScript, Responsive Design
- **Developed** responsive web portal for blood donor management
- **Implemented** cross-device compatibility with seamless user experience
- **Integrated** with ASP.NET Web API backend using OAuth2 authentication

Kaizen GYM Management System Frontend (2024)

- **Technologies:** Angular, TypeScript, Bootstrap
- **Created** a responsive frontend for gym management platform
- **Enhanced** member engagement by 40% through responsive design principles

Flutter Mobile Projects

Grifols-Donor HUB Mobile Application (2025)

- **Technologies:** Flutter, Dart, OAuth2 Authentication

- **Architected** cross-platform mobile application for blood donor management
- **Implemented** real-time donor registration, scheduling, and history tracking

Location-Based Attendance Mobile App (2024)

- **Technologies:** Flutter, Geolocator API, Bing Maps API
- **Developed** geofencing-enabled attendance tracking for 100+ staff
- **Integrated** precise location verification with sub-second response times

Smart Parking Mobile App (2021)

- **Technologies:** Flutter, GPS Integration, Payment Gateway
- **Built** cross-platform mobile application supporting iOS and Android
- **Implemented** real-time parking space availability and reservation system

Microsoft Power Platform Projects

Travel Requisition Approval Workflow Manager - Phase 2 (2025)

- **Technologies:** Microsoft Power Apps, Power Automate, Oracle Database Integration
- **Enhanced** travel requisition system with advanced workflow capabilities
- **Implemented** complex approval hierarchies and delegation features
- **Extended** Oracle database integration for comprehensive financial reporting

Travel Requisition Approval Workflow Manager - Phase 1 (2024)

- **Technologies:** Microsoft Power Apps, Power Automate, Oracle Database Integration
- **Architected** comprehensive travel requisition management system
- **Automated** entire approval workflow from submission to authorization

Fire Safety Maintenance Traceability Application (2023)

- **Technologies:** SharePoint, Power Automate, Power Apps
- **Created** digital solution for fire safety equipment maintenance across 50+ facilities
- **Implemented** automated notification workflows for regulatory adherence

Location-Based Attendance PowerApps Application (2023)

- **Technologies:** SharePoint, Power Apps, Power Automate, Bing Maps API
- **Architected** web-based attendance management using Power Platform
- **Integrated** Bing Maps API for precise geolocation verification
- **Automated** attendance approval workflows reducing manual processing

Price Fluctuation Approval Workflow Manager (2023)

- **Technologies:** SharePoint, Power Automate, Power Apps
- **Engineered** dynamic approval workflow for price change authorization
- **Automated** multi-level approval cycles with real-time notifications
- **Streamlined** pricing decision-making processes maintaining business continuity

Custody and Expenses Management Application (2023)

- **Technologies:** SharePoint, Power Automate, Power Apps
- **Developed** comprehensive expense management system with automated workflows
- **Created** transparent expense tracking with financial controls

Departmental Correspondence Manager (2022)

- **Technologies:** SharePoint, Power Automate, Power Apps
- **Built** centralized communication platform for departmental correspondence
- **Enhanced** interdepartmental communication through automated routing
- **Implemented** document management with version control and approval workflows

Education

Bachelor of Science in Computer Science | 2017 - 2021

Modern Academy | Cairo, Egypt

Grade: Excellent

Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Web Development

Certifications

Microsoft Certified: Azure AI Engineer Associate | Microsoft | June 2025

Microsoft Certified: Power Platform Developer Associate | Microsoft | February 2025

Introduction to MongoDB | MaharaTech - ITIMooCa | January 2024

Intro to ChatGPT and Generative AI | 365 Data Science | July 2023

UX Design Fundamentals | MaharaTech - ITIMooCa | April 2023

Career Essentials in Software Development by Microsoft and LinkedIn | Microsoft | March 2023

Learn HTML & CSS | MaharaTech - ITIMooCa | March 2023

Certified Ethical Hacker (CEH) | MaharaTech - ITIMooCa | December 2022

Certificate of Completion - SQL | 365 Data Science | November 2022

Introduction to Software Testing Concepts & Techniques | MaharaTech - ITIMooCa | November 2022

Global Banking & Markets Virtual Experience Programme | Forage | August 2021

Digital Marketing | EgyptFWD - Udacity | July 2021

Flutter & Dart Development | Udemy | July 2021

Oracle Database 12c: SQL Fundamentals | Sololearn | January 2020
